10:55 - 11:05: BREAK (Fika, mail and phone)

11:05 – 11:20 Preparation of bids for CRANE:

- The procurement process (brief overview, three phases and size of procurement)
- Expected different expertise needed in industry consortium

11:20 – 11:45 Q&A

This is the session where the industry participants or others can ask any questions that you want. See below some thoughts from us for you to consider:

What additional information do you need, at this introduction stage, to stay interested? What is your feeling about the building blocks, additional clarification or info needed, how can we clarify this further? Do you see a business potential in this scope, and how can we help to increase the business potential? How can we secure best value for money through the different phases of piloting and validation, what should be included to make it worth to invest from your point of view?

In addition, we urge industry participants to ask about, or comment on other CRANE related business!

11:45 – 12:00 Wrap up, next steps!
