DevOps

Real Time communication for web and mobile

- *WebRTC Media server*
- *Highly customizable media processing.*
- *Easy to Integrate*
- *Java API*
- *Control protocol over WebSockets*

<http://www.kurento.org>

- *Platform to ease WebRTC development*
- *Easy programming.*
- *Tons of examples.*
- *Advanced features (recording, filtering, CV, ...)*
- *Http API REST*

<https://openvidu.io>

Smart*

Open APIs for Open minds

- *Curated framework of Open Source platform components to accelerate the development of smart solutions*
- *Smart usage of data.*
- *Standard APIs for data management and exchange.*
- *Components to gather and process IoT data.*

<https://www.fiware.org/>

Software Testing

Web Functional & Load Testing

Participants in the ElasTest project

- *Log Analysis*
- *Test orchestration*
- *Web and Mobile testing*
- *Security Testing*
- *IoT testing*
- *Performance testing*

<https://elastest.io>

Currently under development

- *Platform for functional & load testing*
- *WebRTC testing (video/ audio)*
- *Navigation*
- *How a system behaves under pressure*
- *Innovative approach*
- *Based on AWS architecture*
